

SHAREit (SHARE), Social Investment Management Introduction

The increasing adoption of crypto in the world and the ever-evolving and technology gave rise to several phenomena.

1. The addition of new projects that prioritize the adoption of crypto use in daily activities
2. Gaming then NFT as an unprecedented asset in previous years and Metaverse as the next destination.
3. Young crypto users are increasing the number of new crypto users and investors.
4. Increased risk from additional projects and immature new investors (risk taking investors)

Risk of Investment

Cryptocurrency is one of the hottest investments of the year, but it can also be risky. It's still highly speculative at this point, and nobody can be certain whether it will succeed over the long run. *Social media hype and the gambling-like thrill of competing to get rich quick are driving younger investors to turn to cryptocurrencies, foreign exchange trading and other high-risk products, according to the City watchdog. (The Guardian, Nov 2021)*

So that the crypto world is filled with new investors who are risk-taking types. They want quick profits regardless of risk and technical analysis of investments.

This is added also a new project that is not based on good intentions to take advantage of this situation.

In the end, there are many losses that are not small in the ecosystem caused by this situation.

A solution is needed to bridge novice investors with healthy projects, thus enabling them to earn sustainable profits. SHAREit (SHARE) has a long-term vision, and with the community's support, it will overcome those challenges.

What is SHAREit ?

SHAREit (SHARE) is a community driven project with a share to earn program. All community members can participate by contributing to enlarge the coin by means of this coin to others. Community members who actively spread information about this coin have the opportunity to get prizes that will be drawn every week.

Share It has a goal for long-term investment, where investors can keep their coins for the long term and provide benefits to community members.

Share It will be one of the largest community-based projects to gather as many members as possible in the development of the project. Have a gradual and scheduled major marketing effort.

Investment Management designed for all types of retail investors who want to invest with limited funds. Adopting some **utilities** to come:

1. Token scanning → ensure safety for investor
2. Joint Investment (trading) → adopting Social trading mechanism
3. Entry and Exit with Limit Trading Execution
4. Wealth distribution from general profit from joint investment to all holders.

We will work closely with audit bodies in the future to ensure the safety of investors. The SHARE token is the main token used for operation in the system.

SHAREit goal is to develop the Artificial Intelligence to Social Investment Platform that will be a benchmark of Decentralized Finance Ecosystem.

Roadmap of Development:

The Social Investment Management Platform will create good investment conditions for novice investors but have higher earning potential.

Dec 2021

- Whitepaper and Roadmap
- Smart Contract Stealth Launching
- Early Marketing & Promotion
- Holders Target 300
- Market Cap 50K

Jan 2022

- Promotion on Twitter by Influencers
- Holders Target 1500
- Market Cap 250K
- Applying CoinGecko and CoinMarketCap

Feb 2022

- Promotion by Google Ads, Facebook Ads, and Youtube Ads
- Holders Target 3000
- Market Cap 1.5M
- Applying TechRate Audit

Mar 2022

- Marketing & Promotion
- Holders Target 6000
- Market Cap 4M
- Community on Project Progress Review

Q2 2022

- Holders Target 12000
- Applying CERTIK Audit
- Market Cap 20M
- Applying 2 CEX listing (big 20 CEX)
- Community on Project Progress Review

Q3 2022

- Holders Target 12000
- Create new Android and IOS team for Apps / Games
- Market Cap 100M
- Applying 2 CEX listing (big 10 CEX)
- Community on Project Progress Review

Q4 2022

- Mobile App Launch & several updates
- Holders Target 60000
- Market Cap 500M
- Community on Project Progress Review
[next is to be decided by community]

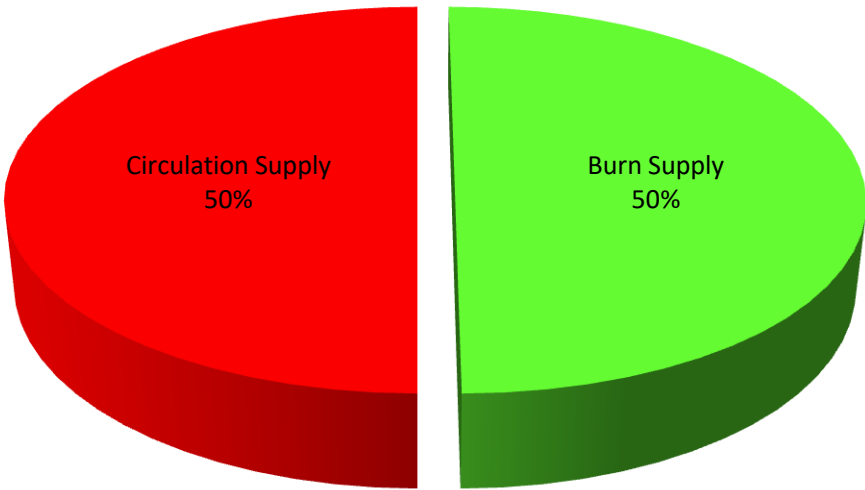

\$SHAREit (SHARE) Token

- **Transaction Tax**
Buy Tax 13%
6% Liquidity
5% Marketing
2% Holders

Sell Tax 13%
6% Liquidity
5% Marketing
2% Holders

Tokenomic

Max Supply:1,000,000,000,000,000

[next is to be decided by community]
